About Us

A R ENGINEERING IS A LEADING MANUFACTURER OF ALL TYPES OF MECHANICAL PARTS IN INDIA.

A R ENGINEERING is manufacturing various parts by FORGING METHOD, CASTING METHOD, ROUND BAR, HEX PARTS and able to supply components in various condition like forging parts and assembled, finish parts, or as per customer's demand.

The industry has earned reputation by providing various parts to the various industries according to their stand requirement and also in customized size.

Our experienced professionals are involved for providing a super finish product value rather than just a low unit cost with assured quality within time frame.
